

# Behaviour Experiments

An experiment helps you learn new things by **trying them out and looking closely at what happens**. You think that sun light helps plants, you might do an experiment where you grow one with lots of sun and one with just a little. Then you watch to see which one grows better).

**Behaviour experiments help you understand some of your worries and test them out in a safe way.**

1

Worry/Fear

Before the experiment

What are you worried about?  
What bad thing could happen?

2

Experiment

How could you try it out  
to see what happens?

3

What you did

After the experiment

What happened?  
What did you learn?

I want to wear my blue  
trainers to school but  
I'm worried other kids  
will laugh at me and  
think they are ugly.

I could wear them on  
Monday but only in  
the morning then get  
changed.

I wore them for a  
bit on Monday. No  
one said anything.
