Mustafy, Tauhid Rahman, Nafisa Siddiqui, 2024-12-30 This book provides a concise overview of a variety of techniques for analyzing statistical scientific and financial data using MATLAB to integrate several approaches to data analysis and statistics. The chapters offer a broad review of computational data analysis illustrated with many examples and applications. Topics range from the basics of data and statistical analysis to more advanced subjects such as probability distributions, descriptive and inferential statistics, parametric and non-parametric tests, correlation and regression analysis. Each chapter combines theoretical concepts with practical MATLAB applications and includes practice exercises ensuring a comprehensive understanding of the material. With coverage of both basic and more complex ideas in applied statistics, the book has broad appeal for undergraduate students up to practicing engineers.

**R in Action** Robert Kabacoff, 2011 R in Action is the first book to present both the R system and the use cases that make it such a compelling package for business developers. The book begins by introducing the R language including the development environment. Focusing on practical solutions, the book also offers a crash course in practical statistics and covers elegant methods for dealing with messy and incomplete data using features of R. About the Technology R is a powerful language for statistical computing and graphics that can handle virtually any data crunching task. It runs on all important platforms and provides thousands of useful specialized modules and utilities. This makes R a great way to get meaningful information from mountains of raw data. About the Book R in Action is a language tutorial focused on practical problems. It presents useful statistics examples and includes elegant methods for handling messy, incomplete, and non-normal data that are difficult to analyze using traditional methods. And statistical analysis is only part of the story. You'll also master R's extensive graphical capabilities for exploring and presenting data visually.
