## **Embodied Female:**

*Embodied* Gregg R. Allison, 2021-05-11 We rarely give thought to our bodies until faced with a physical challenge or crisis We have somehow internalized the unbiblical idea that the immaterial aspect of our being our soul or spirit is inherently good while the material aspect our body is at worst inherently evil and at best neutral just a vehicle for our souls to get around So we end up neglecting or disparaging our bodies seeing them as holding us back from spiritual growth and longing for the day we will be free of them But the thing is we don't have bodies we are our bodies And God created us that way for a reason With Scripture as his guide theologian Gregg Allison presents a holistic theology of the human body from conception through eternity to equip us to address pressing contemporary issues related to our bodies including how we express our sexuality whether gender is inherent or constructed the meaning of suffering body image end of life questions and how to live as whole people in a fractured world

### **Writing on the Body? Thinking Through Gendered Embodiment and Marked Flesh**

Kay Inckle, 2009-03-26 This groundbreaking piece of work establishes a position of embodiment as an ethically salient epistemological and empirical strategy for understanding representing and experiencing gendered embodiment and marked flesh Developing an embodied feminist critique of the sociology of the body the author integrates this position with some of the most recent developments in qualitative methodologies and creative research practices in order to engage with and represent women's experiences of body marking As such the specific body practices which are addressed body modification and self injury are refigured in the context of a feminist embodied position This position of embodiment not only establishes a holistic non dualistic orientation from which to experience and explore gendered embodiment and body marking practices but in doing so also highlights the limitations of normative dualistic disembodied theories and methods which objectify and distance the very experiences they purport to explain Overall this exploration is a provoking moving and often uncomfortable journey into the imperatives of gendered embodiment abject corporeality blood and pain and the practices which mark the body and evoke and transform the gendered embodied self This is a courageous beautifully written evocative and thought provoking book that takes the reader on an intimate journey into the misunderstood world of body marking practices As part of the journey Inckle provides a range of insights into the fluid ambiguous and complex forms of embodiment experienced by women over time The reflexive stance she adopts throughout enables the reader to chart her emerging awareness of methodological dilemmas and the inherent tensions she experiences in trying to resolve them in relation to feminist ethical positions As part of this process she challenges the norms of knowledge production and dissolves the disciplinary boundaries that frame much of the current debate on embodiment and body marking practices Inckle's findings offer a powerful critique of dominant research perspectives that focus on the body and she makes a strong case for the development of a feminist embodied sociology in the future As such this book will be of immense interest to sociologists and psychologists with an interest in the body and the dynamics of embodiment as well as to scholars seeking to develop their understanding of key

methodological issues Professor Andrew C Sparkes PhD Exeter University This book is based on one of the best methodological approaches I have come across Supported by materials from a wide variety of disciplines it is reflexively argued and Dr Inckle charts new grounds in her trajectory from feminist methodologies to creative sociology searching for new ways of producing knowledge and radically broadening the sociological research agenda to include stories that come out of the body I particularly like the way Dr Inckle develops feminist research methodologies critiquing participatory approaches as often difficult to implement and the fearless yet highly problematic positioning of the researching I at the centre of the research process Dr Ronit Lentin Department of Sociology Trinity College Dublin

**Gendered Bodies and New Technologies** Amanda du Preez, 2009-10-02 In this era of ubiquitous information flow heightened mobility and limitless consumer convenience human interaction with new technologies has become increasingly seamless In the process the human body is effectively and steadily reduced to just another interface or a second life so to speak What is easily forgotten during this translucent transaction is that being human also necessarily implies being embodied In other words to constitute a body in its non negotiable physicality is still what it entails to be human amongst other things To live daily in and through the complicated and dynamic intersection between mind and body psychology and physiology also known as embodiment is what makes us human

The Bloomsbury Research Handbook of Indian Philosophy and Gender Veena R. Howard, 2019-10-17 How do gender constructions transform religious experiences What is the role of bodily materiality in ethics and epistemology How does rethinking gender and sexuality force us to reconceptualise settled ontological frameworks This collection provides the first research resource to Indian philosophical gender issues exploring a variety of texts and traditions from Indian philosophy where the treatment of gender is dynamic and diverse Organised around three central themes the gender dynamics of enlightenment in the Hindu and Buddhist traditions the simple binary opposition of genders in Indian traditions the ways in which symbolic representations of gender differ from social realities in Hindu and Buddhist practice a team of respected scholars discuss feminist readings examinations of femininity and masculinity as well as queer and trans identities representations and theories Beginning with the Vedic tradition and ending with sections on Sri Ramakrishna and Gandhi this wide ranging handbook encourages fresh inquiry into classic philosophical questions Offering critical analyses relevant to literary cultural and religious studies The Bloomsbury Research Handbook of Indian Philosophy and Gender opens up new ways of understanding gender and South Asian philosophy

Women, Monstrosity and Horror Film Erin Harrington, 2017-08-10 Women occupy a privileged place in horror film Horror is a space of entertainment and excitement of terror and dread and one that relishes the complexities that arise when boundaries of taste of bodies of reason are blurred and dismantled It is also a site of expression and exploration that leverages the narrative and aesthetic horrors of the reproductive the maternal and the sexual to expose the underpinnings of the social political and philosophical othering of women This book offers an in depth analysis of women in horror films through an exploration of gynaehorror films concerned

with all aspects of female reproductive horror from reproductive and sexual organs to virginity pregnancy birth motherhood and finally to menopause Some of the themes explored include the intersection of horror monstrosity and sexual difference the relationships between normative female hetero sexuality and the twin figures of the chaste virgin and the voracious vagina dentata embodiment and subjectivity in horror films about pregnancy and abortion reproductive technologies monstrosity and mad science the discursive construction and interrogation of monstrous motherhood and the relationships between menopause menstruation hagsploitation and abject barren bodies in horror The book not only offers a feminist interrogation of gynae horror but also a counter reading of the gynae horrific that both accounts for and opens up new spaces of productive radical and subversive monstrosity within a mode of representation and expression that has often been accused of being misogynistic It therefore makes a unique contribution to the study of women in horror film specifically while also providing new insights in the broader area of popular culture gender and film philosophy

Women and Their Body Jil Muller, 2025-09-01 Women's rights over their own bodies is one of the most pressing issues esp as women still seem to have fewer rights over their bodies than men International authors from philosophy literature art architecture and gender studies address the topic from a variety of perspectives reaching beyond classical feminism and beyond the labels of motherhood and sex The contributions are grouped into five sections Body Experiences History Technology and Arts Feminism and Phenomenology and Beauty Papers address a multitude of areas ranging from beauty practices and Ukrainian women refugees in the context of the Russia Ukraine war feminist phenomenology and socio structural critique female specific neuropathology the discourse of the Victorian women's menstruation to motherhood in gender studies and feminist new materialisms The book provides not only a comprehensive overview over the current state of research but will also inspire further discussions A separate bibliography listing relevant titles for readers new to the topics and for advanced researchers rounds out the volume

**Development and Gender Capital in India** Shoba Arun, 2017-09-06 The Indian state of Kerala has invoked much attention within development and gender debates specifically in relation to its female capital an outcome of interrelated historical cultural and social practices On the one hand Kerala has been romanticised with its citizenry particularly women being free of social divisions and uplifted through educational well being On the other hand its realism is stark particularly in the light of recent social changes Using a Bourdieusian frame of analysis Development and Gender Capital in India explores the forces of globalisation and how they are embedded within power structures Through narratives of women's lived experiences in the private and public domains it highlights the anomie of gender through complexities and contradictions vis vis processes of modernity development and globalisation By demonstrating the limits placed upon gender capital by structures of patriarchy and domination it argues that discussions about the empowered Malayalee women should move from a mere politics of rhetoric and representation to a more embedded politics of transformation meaningfully taking into account women's changing roles and identities This book will be of interest to scholars and students of Development
