Sometimes you may have to just perform mundane tasks like testing and keeping the fire equipment ready for any emergency. Sometimes you may have to work long hours under dangerous circumstances to provide rescue and relief. You may be exposed to hazardous conditions like smoke inhalation, carcinogenic materials, unstable buildings, falling debris, etc. You may have to perform salvaging operations like removing debris, transporting injured victims, sweep water, speak to schools about evacuation procedure, assist medical personnel in evaluating victims, etc. Firefighters normally spend 24 hours on duty and 48 hours off duty. Some departments also have better shifts like 8 10 hour daily shifts. Under any circumstances you will typically spend 45 to 50 hours every week at work. In case you are on 24 hours shifts you will be provided accommodation inside the fire department facility. So you will have access to kitchen, study, locker rooms, sleeping areas, bathrooms, etc. Amidst the shift you will also have access to games, technical reading, and other fun activities. Just make sure you are ready to leave at the sound of an emergency. New hires typically engage after 1 to 3 months of intense study and training. During this period they learn about how to use all the firefighting equipment and about fire technology. They may be allowed to demonstrate their skills but under the close supervision.
