## Five Civilized Tribes:

### **The Five Civilized Tribes in Indian Territory: the Cherokee, Chickasaw, Choctaw, Creek, and Seminole Nations**

United States. Census Office, 1894     The Five Civilized Tribes Grant Foreman, 2013-04-17 Side by side with the westward drift of white Americans in the 1830s was the forced migration of the Five Civilized Tribes from Mississippi Alabama Georgia and Florida Both groups were deployed against the tribes of the prairies both breaking the soil of the undeveloped hinterland Both were striving in the years before the Civil War to found schools churches and towns as well as to preserve orderly development through government and laws In this book Grant Foreman brings to light the singular effect the westward movement of Indians had in the cultivation and settlement of the Trans Mississippi region It shows the Indian genius at its best and conveys the importance of the Cherokees Chickasaws Choctaws Creeks and Seminoles to the nascent culture of the plains Their achievements between 1830 and 1860 were of vast importance in the making of America     The Five Civilized Tribes, 1989 Examines the problems of the Indian tribes in trying to maintain a self derived culture while adapting to the alien influences of the white man's society during the nineteenth century     *The Five Civilized Tribes* Charles Hall Fitch, 1900 With the exception of a small area in the northeastern corner belonging to several small tribes of Indians Indian Territory comprises the lands of the Cherokees Creeks Seminoles Choctaws and Chickasaws five tribes known as the Five Civilized Tribes and to these tribes just on the eve of important changes in their tribal governments consideration is here given Their lands were deeded to them upwards of seventy years ago when the need of more room for the settlers in the South made their removal from the Southern States desirable Then the country adjoining Arkansas on the west seemed a good place to send them and at that time it was considered so remote from white settlements that in all probability no thought was given to the possibility of disturbing them again     *Index to the Annual Reports of the Commission to the Five Civilized Tribes for the Years 1894-1905* United States. Superintendent for the Five Civilized Tribes, 1906     **Blood Matters** Erik March Zissu, 2014-06-03 First Published in 2002 This study explores how the five tribes of Oklahoma Cherokees Chickasaws Choctaws Creeks and Seminoles strove to achieve political unity within their tribes during the first decades of the 20th century by forging a new sense of peoplehood around the idea of blood     The Five Civilized Tribes Charles River Charles River Editors, 2017-01-28 Includes pictures Traces the history of each tribe from their origins to today Includes eyewitness accounts of the Trail of Tears Includes a Bibliography for further reading The Five Civilized Tribes are among the best known Native American groups in American history and they were even celebrated by contemporary Americans for their abilities to adapt to white culture But tragically they are also well known tribes due to the trials and tribulations they suffered by being forcibly moved west along the Trail of Tears The Cherokee began the process of assimilation with whites very early even before the establishment of the United States and by the early 19th century they were one of the Five Civilized Tribes Ultimately however it is unclear what benefits civilization brought the tribe Throughout the colonial period

and after the American Revolution the Cherokee struggled to satisfy the whims and desires of American government officials and settlers often suffering injustices after complying with their desires Nevertheless the Cherokee continued to endure and after being pushed west they rose from humble origins as refugees new to the southeastern United States to build themselves back up into a powerhouse both economically and militarily Even after being forced to leave their traditional homeland again they once more rose to become a powerful tribe and nation ruling themselves and building their economic power through wise and skillful leadership Though not as well known as the Cherokee two of the Five Civilized Tribes were the Chickasaw and Choctaw With roots that tie them to the Ancient Moundbuilders the Chickasaw and Choctaw were among the most established groups in the Southeastern United States and they were among the first natives encountered by Spanish explorer Hernando De Soto s historic expedition in the mid 16th century They became known as two of the Five Civilized Tribes for quickly assimilating aspects of European culture but in response to early European contact they also became part of one of the strongest confederacies in the region Ultimately however they were pushed westward during the mid 19th century and were notoriously part of the Trail of Tears Despite becoming a dominant regional force infighting among the Creek brought about civil war in the early 19th century and they were quickly wrapped up in the War of 1812 as well By the end of that fighting the Creek were compelled to cede millions of acres of land to the expanding United States ushering in a new era that found the Creek occupying only a small strip of Alabama by the 1830s With the Spanish Empire foundering during the mid 19th century the young United States sought to take possession of Florida President Andrew Jackson s notorious policy of Indian Removal led to the Seminole Wars in the 1830s and that was already after General Andrew Jackson had led American soldiers against the Seminole in the First Seminole War a generation earlier The Seminole Wars ultimately pushed much of the tribe into Oklahoma and the nature of some of the fighting remains one of the best known aspects of Seminole history among Americans The Five Civilized Tribes comprehensively covers the culture and history of the famous tribes profiling their origins their famous leaders and their lasting legacy Along with pictures of important people places and events you will learn about the Cherokee Chickasaw Choctaw Creek and Seminole like you never have before **The Five Civilized Tribes** Grant Foreman,1986 **Annotated Acts of Congress** United States,1913 **Nations Remembered** Theda Perdue,1980-12-19 The five largest southeastern Indian groups the Cherokees Chickasaws Choctaws Creeks and Seminoles were forced to emigrate west to the Indian territory now Oklahoma in the 1830s Here from WPA interviews are those Indians own stories of the troubled years between the Civil War and Oklahoma statehood a period of extraordinary turmoil During this period Oklahoma Indians functioned autonomously holding their own elections enforcing their own laws and creating their own society from a mixture of old Indian customs and the new ways of the whites The WPA informants describe the economic realities of the era a few wealthy Indians the rest scraping a living out of subsistence farming hunting and fishing They talk about education and religion Native American and Christian as well as diversions of the time horse
