enchanting and the revolting are each factors of heathen devotion We well remember with what exhaustless interest we looked in childhood at strange pictures of idols and temples and listened to the reading of tales about the heathen When the celebrated Dr Alexander Duff was a little boy his father was accustomed on Sabbath afternoons to show him pictures of idols and to explain their histories So vividly did the pictures and their stories impress the boy that when he became a man he left Scotland and went to labor for the heathen of India The subject is indeed intensely interesting Every nation has its God or gods and its corresponding forms of worship Nothing lies so close to the heart of mankind as its religious faith Religion in some form is interwoven with the entire fabric of human history It concerns man s dearest pleasures his fondest hopes and his highest aspirations Man must worship It is part of his nature to worship Hence from the most civilized European to the half civilized Chinaman and even down to the degraded Hottentot in all stages of man s existence among all races and classes some form of worship is found Nothing surely can interest us more than the story of that faith in which our fellow creatures have lived and died It is because the author believes that the subject of false gods and idol worship is so interesting and because he hopes to furnish some much needed information on this topic that he has undertaken the present work There is no one book that covers this ground There are many volumes covering various phases of the religious systems of heathendom but there is not one that deals comprehensively with all religions extinct or existing except indeed it be those suited only to students and to learned men The aim in this volume is to present the subject in a popular style suited to the average reader of our land About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
