Movie Moods Greg M. Smith, 1998 **Passionate Views** Carl Plantinga, Greg M. Smith, 1999-04-23 The movie theater has always been a place where people come together to share powerful emotional experiences from the fear generated by horror films and the anxiety induced by thrillers to the laughter elicited by screwball comedies and the tears precipitated by melodramas Indeed the dependability of movies to provide such experiences lies at the center of the medium's appeal and power Yet cinema's ability to influence even

manipulate the emotions of the spectator is one of the least explored topics in film theory today In *Passionate Views* thirteen internationally recognized scholars of film studies philosophy and psychology explore the emotional appeal of the cinema Employing a novel cognitive perspective the volume investigates the relationship between genre and emotion explores how film narrative music and cinematic techniques such as the close up are used to elicit emotion and examines the spectator's identification with and response to film characters An impressive range of films and topics is brought together by Carl Plantinga and Greg M Smith including the success of *Stella Dallas* and *An Affair to Remember* as tearjerkers the power of *Night of the Living Dead* to inspire fear and disgust the sublime evoked in *The Passion of Joan of Arc* *Aguirre the Wrath of God* and *The Children of Paradise* the emotional basis of film comedy as seen in *When Harry Met Sally* the use of cinematic cues in *Raiders of the Lost Ark* and *Local Hero* to arouse emotions the relationship between narrative flow and emotion in *Once Upon a Time in the West* and *E T* the emotive use of music in *The Elephant Man* and *A Clockwork Orange* *Stranger than Paradise*'s sense of timing desire and resolution in *Casablanca* audience identification with the main characters in *Groundhog Day* and *The Crying Game* portrayal of perversity in *The Silence of the Lambs* *Flaming Creatures* and *Shivers* and empathy elicited through closeups of actors faces in *Yankee Doodle Dandy* and *Blade Runner* *Passionate Views* offers a new approach to our understanding of film and will be of interest to anyone fascinated by the emotional power of motion pictures and their relationship to the central concerns of our lives as well as by the techniques filmmakers use to move an audience

genres work on a psychological level Providing a theoretical framework for further empirical research the book outlines a differentiated model for analysing key devices of cinematic narration in view of their impact on the spectators TM mind

Sexualized Brains Nicole C. Karafyllis, Gotlind Ulshöfer, 2008 The now popular idea that emotions have an intelligent core and the reverse that intelligence has an emotional core comes from the neurosciences and psychology Similarly the fundamental sexualization of the brain the new interest in essential differences in male and female brains and behaviors is based on neuroscience research and neuroimages of emotions In Sexualized Brains scholars from a range of disciplines reflect on the epistemological claims that emotional intelligence EI can be located in the brain and that it is legitimate to attribute distinct kinds of emotions to the biological sexes The brain as an icon has colonized the humanities and social sciences leading to the emergence of such new disciplines as neurosociology neuroeconomics and neurophilosophy Neuroscience and psychology now have the power to transform not only the practice of science but also contemporary society These developments the essays in this volume show will soon affect the very heart of gender studies
