## Fields Of Play:

**Fields of Play** Laurel Richardson, 1997 How do the specific circumstances in which we write affect what we write How does what we write affect who we become How can we maintain professional and personal integrity in today's university In a series of traditional and experimental writings a culmination of ten years of works in progress Laurel Richardson records an intellectual journey displacing boundaries and creating new ways of reading and writing Applying the sociological imagination to the writing process she connects her life to her work Deeply engaging movingly written with grace elegance and clarity the book stimulates readers to situate their own writing in personal social and political contexts

**Fields of Play** Noel Dyck, 2012-10-04 Thousands of children participate in community sports every year enjoying recreation time with their peers getting healthy exercise and learning a variety of personal and group skills At the same time children's sports are not without controversy parents can be overly invested in their children's exploits competitive success is often the focus and rising costs can limit participation Consider too that these activities billed as being for the kids are often overlaid with other agendas by the adults who volunteer work and generally support children's sports Noel Dyck incorporates nearly two decades of ethnographic field research into this anthropologically informed account that illustrates how all those involved in children's sports boys and girls parents coaches and sport officials shape these complex vibrant fields of play In the process he explores larger questions and debates about contemporary family and community and the shaping of childhood youth and adulthood Bridging anthropology sport studies and childhood studies **Fields of Play** offers a rich understanding of an area that has to date gained relatively little attention by social scientists

**Fields of Play in Modern Drama** Thomas R. Whitaker, 2015-03-08 Starting from the assumption that all theater is at least implicitly participatory Professor Whitaker approaches thirteen plays from Ibsen's *Rosmersholm* to Beckett's *Endgame* and Stoppard's *Rosencrantz and Guildenstern Are Dead* He asks the reader to commit himself to a variety of points of view those of witnesses actors directors and characters as a series of critical fictions lead him toward the experience of each play in performance The author supplies detailed readings of the plays in various modes The styles of the chapters vary according to the issues dominant in the plays discussed and the reader experiences simultaneously a sense of approaching the meaning of performance and of gaining a deeper understanding of the play through a subtle and allusive commentary Originally published in 1977 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905
