"Gene Youngblood's book is the most brilliant conceptualizing of the still-incomplete use of the Sussman-Universe principle, which must be employed by humanity to equalize its senses and its knowledge in time to ensure the survival of that time. Three-and-one-half-billion-member team of humanity must be united by evolution about our little Space Vehicle Earth. Gene Youngblood's book represents the most important metaphysical scenario for coping with the chaos of educational systems based only on yesterday's Newtonian-logic thinking. Youngblood's Expanded Cinema is the beginning of the new metamaterialism from last."
