ABSTRACT

Objective: Marital infidelity, which signifies a breach of commitment between husband and wife, leads to varying degrees of emotional and physical connection with someone outside the marital relationship. The aim of this study was to investigate the effectiveness of Acceptance and Commitment Therapy (ACT) on alexithymia in women experiencing infidelity.

Methods and Materials: The research method was a quasi-experimental design utilizing pre-tests, post-tests, and control and experimental groups. The study population consisted of all women affected by infidelity who sought counseling in Qom (Fardaye Roshan and Shamim Counseling Centers). The sampling method was voluntary with random replacement; thus, among the women affected by infidelity who visited the aforementioned centers, 30 were selected and then randomly assigned to either the experimental or control group based on a list of names. The instruments used in this study included the Toronto Alexithymia Scale (Taylor, 1986). Data were analyzed using multivariate covariance analysis and mixed analysis of variance with repeated measures design in SPSS 27.

Findings: The results indicated that Acceptance and Commitment Therapy was effective in reducing alexithymia in women experiencing infidelity ($p < .001$, $F = 14.065$).

Conclusion: Consequently, the findings of this study confirm the role and impact of Acceptance and Commitment Therapy in reducing the alexithymia of spouses affected by infidelity.

Keywords: Acceptance and Commitment Therapy, alexithymia, marital infidelity, women.

Among these harms, marital infidelity can be mentioned. Marital infidelity, which means the violation of the commitment between a husband and wife, leads to the formation of

Sacred Language, Sacred World Joshua D. Broggi, 2015-12-17 Heidegger and Gadamer are typically read by different theologians Heidegger tends to be read by philosophical theologians examining his contribution to matters of doubt existential finitude and atheism Gadamer tends to be read by those with an interest in interpreting the Bible especially by those with more confessional or epistemically optimistic sensibilities In both cases Heidegger and Gadamer have well established associations with specific theological positions Joshua Broggi challenges this arrangement by re reading the primary texts as theological resources he defends an alternative theological appropriation of their philosophical work through a close engagement with portions of their argument What emerges from Broggi's examination is an account of the unity of tradition reason and scriptural language This account goes beyond claims of their relatedness which are uncontroversial and advances the stronger argument that they name the very same thing Although initially counterintuitive the central task set by both Heidegger and Gadamer is the investigation of that one phenomenon This argument challenges the pervasive image in which Christians rely on tradition to reason about the meaning of scripture It puts into question the injunction that theologians should balance the resources of scripture tradition and reason Broggi offers an account of Christian life as more fundamental than certain entities which are distilled out of it namely scripture tradition and reason
