

Family: The Meaning, Features, Types and Functions (5230 Words)

This article provides information about the meaning, features, types and functions of Family:

Family is one of the most important social institutions. Most of the world's population lives in family units; it is an important primary group in the society. Family is the most pervasive and universal social institution. It plays a vital role in the socialisation of individuals. Family is regarded as the first society of human beings.

It is known as the first school of citizenship. One is born in family, grows in it, works for it and dies in it. One develops emotional attachment to it. The parental care imparts to the child the first lesson in social responsibility and acceptance of self-discipline. Family is the backbone of social structure. It occupies a nuclear position in society.

Meaning of Family:

Broadly speaking, family refers to the group comprising parents and children. It may also refer, in some cases, to a group of relatives and their dependants forming one household. All these refer to the compositional aspect of this institution. Another aspect is that of residence of its members.

ADVERTISEMENTS:

They usually share common residence, at least for some part of their lives. Thirdly, there is the relational aspect of the family. Members
