Zapruder Øyvind Vågnes, 2012-08-24 Winner Peter C Rollins Book Award 2012 As the fiftieth anniversary of the Kennedy assassination approaches the traumatic aspects of the tragedy continue to haunt our perceptions of the 1960s One reason for this lies in the home movie of the incident filmed by Abraham Zapruder a bystander who became one of the twentieth century's most important accidental documentarians The first book devoted exclusively to the topic Zapruder traces the journey of the film and its effect on the world's collective imagination Providing insightful perspective as an observer of American culture Norwegian media studies scholar Øyvind Vågnes begins by analyzing three narratives that are projections of Zapruder's images performance group Ant Farm's video The Eternal Frame Don DeLillo's novel Underworld and an episode from Seinfeld Subsequent topics he investigates include Dealey Plaza's Sixth Floor Museum Zoran Naskovski's installation Death in Dallas assassin video games and other artifacts of the ways in which the footage has made a lasting impact on popular culture and the historical imagination Vågnes also explores the role of other accidental documentarians such as those who captured scenes of 9/11 Zapruder's footage has never yielded a conclusive account of what happened in Dealey Plaza Zapruder thoroughly examines both this historical enigma and its indelible afterimages in our collective imagination

Investigations into the Origin of Language and Consciousness Trần Duc Thao, 2012-12-06 Trần Duc Thao a wise and learned scientist and an eminent Marxist philosopher begins this treatise on the origins of language and consciousness with a question One of the principal difficulties of the problem of the origin of consciousness is the exact determination of its beginnings Precisely where must one draw the line between the sensori-motor psychism of animals and the conscious psychism that we see developing in man And then he cites Karl Marx's famous passage about the bee and the architect from Capital what distinguishes the worst architect from the best of bees is this that the architect raises his structure in the imagination before he erects it in reality At the end of every labor process we get a result that already existed in the imagination of the laborer at its commencement Capital Vol I p 178 tr Moore and Aveling Thao follows this immediately with a second question But is this the most elementary form of consciousness Thus the conundrum concerning the origins of consciousness is posed as a circle if human consciousness presupposes representation of the external reality of mental awareness of actions of what it may and if this consciousness emerges first with the activity of production using tools and if the production of tools itself presupposes representation that is with an image of what is to be produced in the mind of the producer then the conditions for the origins of human

Mother Comforts Always Ocean Ecosoft, 2025-03-02 Has society inadvertently diminished one of its most vital resources the nurturing power of mothers Mother Comforts Always delves into the evolving role of mothers as emotional anchors within families particularly focusing on how societal shifts have impacted their ability to provide comfort and support This book explores the historical context current realities and potential future of maternal emotional support We will examine how the mother's role traditionally associated with nurturing and emotional well being has been reshaped by factors such as increased female participation in the workforce evolving family structures and changing societal expectations These multifaceted pressures impact not only mothers themselves but also the emotional landscape of the family unit influencing the well being of children and partners alike The significance of this topic lies in its direct relevance to understanding contemporary family dynamics mental health trends and the broader societal implications of altered caregiving patterns This book argues that while societal progress has undoubtedly empowered women in various spheres it has also created unforeseen challenges for mothers striving to maintain

their traditional roles as emotional support providers The core message centers on the idea that a nuanced understanding of these challenges is essential for fostering healthier family relationships and ensuring the well being of future generations Mother Comforts Always is structured to provide a comprehensive exploration of this critical topic The initial chapters lay the groundwork by tracing the historical evolution of motherhood and defining the key components of emotional support We will explore the psychological and social frameworks that underpin the mother child bond and its influence on individual development Subsequent sections will delve into specific societal changes such as the rise of dual income households the increasing prevalence of single parent families and the impact of digital technology on family interactions These sections will analyze how these shifts affect mothers time energy and ability to provide emotional comfort The book then explores the consequences of diminished maternal emotional support on children s emotional and social development adult relationships and overall societal well being The concluding chapters present strategies for mitigating these challenges and fostering a more supportive environment for mothers and families The evidence presented relies on a combination of sociological research psychological studies and historical analysis We will utilize data from national surveys longitudinal studies of child development and in depth interviews with mothers and families This multi faceted approach enables a comprehensive understanding of the complexities involved This book connects to several other fields including developmental psychology sociology and gender studies By drawing on insights from these disciplines the book offers a more holistic perspective on the evolving role of mothers and its societal implications It offers a unique perspective by examining the unintended consequences of societal changes on the traditional role of maternal emotional support It adopts a balanced approach acknowledging the benefits of women s empowerment while highlighting the need to address the challenges faced by mothers in maintaining their nurturing role It s written in an accessible style making complex sociological and psychological concepts understandable to a broad audience The intended audience includes parents educators social workers family therapists and anyone interested in understanding the dynamics of modern family life The book will be valuable to readers seeking insights into the challenges faced by contemporary mothers and practical strategies for fostering healthier family relationships As a work of social science it adheres to standards of rigorous research and objective analysis The scope of the book is confined to examining the role of mothers in providing emotional support within the family context primarily in Western societies It does not delve into cross cultural comparisons or explore the roles of other caregivers in detail The information in this book can be applied to improving family communication fostering emotional resilience in children and advocating for policies that support mothers and families

Patristic Sermons, Etc. [Sermon Notes.] John Marks Ashley, 1878 *From the Modernist Annex* Karin Roffman, 2010-05-13 In the 19th and early 20th centuries the majority of women were forced to seek their education outside the walls of American universities Many turned to museums and libraries for their own enlightenment for formal education and also for their careers In Roffman s close readings of four modernist

writers Edith Wharton Nella Larsen Marianne Moore and Ruth Benedict she studied the that modernist women writers were simultaneously critical of and shaped by these institutions From the Modernist Annex offers new and critically significant ways of understanding these writers and their texts the distribution of knowledge and the complicated place of women in modernist institutions Origen the Preacher John Marks Ashley,1878 Outlook and Independent ,1904 *Impossible Jobs in Public Management* Erwin C. Hargrove,John C. Glidewell,1990 If you think your job is hopelessly difficult you may be right Particularly if your job is public administration Those who study or practice public management know full well the difficulties faced by administrators of complex bureaucratic systems What they don t know is why some jobs in the public sector are harder than others and how good managers cope with those jobs Drawing on leadership theory and social psychology Erwin Hargrove and John Glidewell provide the first systematic analysis of the factors that determine the inherent difficulty of public management jobs and of the coping strategies employed by successful managers To test their argument Hargrove and Glidewell focus on those jobs fraught with extreme difficulties impossible jobs What differentiates impossible from possible jobs are 1 the publicly perceived legitimacy of the commissioner s clientele 2 the intensity of the conflict among the agency s constituencies 3 the public s confidence in the authority of the commissioner s profession and 4 the strength of the agency s myth or long term idealistic goal Hargrove and Glidewell flesh out their analysis with six case studies that focus on the roles played by leaders of specific agencies Each essay summarizes the institutional strengths and weaknesses specifies what makes the job impossible and then compares the skills and strategies that incumbents have employed in coping with such jobs Readers will come away with a thorough understanding of the conflicting social psychological and political forces that act on commissioners in impossible jobs **Art in America and Elsewhere** ,1928
