## Encountering Marx:

**Encountering Marx** Jan M. Lochman, Encountering Marx: bonds and barriers between Christians and Marxists Jan Milic Lochman,1997 **Encounter Between Marxian Philosophy and Theology of Humanisation in India** Mervin Shinoj Boas,2007 **The Theology of the Cross and Marx's Anthropology** Winston D. Persaud,2005-09-13 This is a fascinating major articulation of a contemporary theology of the cross in response to the soteriological challenge of Karl Marx's anthropological Weltanschauung The author focuses primarily on the much neglected Early Writings 1844 Manuscripts in which Marx himself provides a necessary humanistic critique of official Marxism The theology of the cross which the author articulates is centered in Luther's theologia crucis Moltmann's crucified God and Latin American liberation theology's divine identification and solidarity with the poor and oppressed Specifically the context of the work is the Caribbean and the Americas **Three Worlds of Christian-Marxist Encounters** Robert G. Thobaben,Nicholas Piediscalzi,1985 **An Analysis of Karl Marx's Capital** Macat Team,2017-07-05 A critical analysis of Karl Marx's Capital which is without question one of the most influential books to be published in the course of the past two centuries Controversial in its politics and arriving at conclusions that are passionately debated to this day it is nonetheless a fine example of the creative combination of a philosophical method the dialectic with historical and economic information to produce a new interpretation of history Capitalism thought Marx works by exploiting the working class Their wages do not reflect the value of their labor Marx concluded that capitalism would fail because of this contradiction at the heart of the capitalist system He wrote Capital to give activists the theories and language they needed to criticize the system But the work also outlines the new communist society that Marx hoped would rise in its place and it helped to inspire the rise of states that largely shaped the modern history of our planet Today after a century of conflict Marx's analysis still offers valuable tools that help us analyze the modern world Marx's belief that he had arrived at a scientific way of describing the present and predicting the future may not be shared by many of his modern interpreters But his ability to connect things together in new ways is not in doubt and nor is the influence of the new hypotheses that he generated as a result of so much careful analysis Open Marxism 4 Ana Cecilia Dinerstein,Alfonso García Vela,Edith González,John Holloway,2019-11-20 The publication of the first three volumes of Open Marxism in the 1990s has had a transformative impact on how we think about Marxism in the twenty first century Open Marxism aims to think of Marxism as a theory of struggle not as an objective analysis of capitalist domination arguing that money capital and the state are forms of struggle from above and therefore open to resistance and rebellion As critical thought is squeezed out of universities and geographical shifts shape the terrain of theoretical discussion the editors argue now is the time for a new volume that reflects the work that has been carried out during the past decade Emphasising the contemporary relevance of open Marxism in our moment of political and economic uncertainty the collection shines a light on its significance for activists and academics today *Marxist-Leninist 'Scientific*

*Atheism' and the Study of Religion and Atheism in the USSR* James Thrower, 2011-04-20 Since its founding by Jacques Waardenburg in 1971 Religion and Reason has been a leading forum for contributions on theories theoretical issues and agendas related to the phenomenon and the study of religion Topics include among others category formation comparison ethnophilosophy hermeneutics methodology myth phenomenology philosophy of science scientific atheism structuralism and theories of religion From time to time the series publishes volumes that map the state of the art and the history of the discipline

**Beyond the Chains of Illusion** Erich Fromm, 2017-12-28 First published in 1962 Beyond the Chains of Illusion is Fromm's landmark book about Marx and Freud Here he delivers original readings of these hugely influential thinkers and in doing so offers us new ways of understanding the individual and society Perhaps even more revealing than these readings is the insight we get into Fromm's own thought and the political and social contexts in which he formed his ideas Including a foreword by Fromm's Literary Executor Rainer Funk this is unique introduction to Marx and Freud and also to Fromm's life and thought

*Revolutionary Recognition* Richard Gunn, Adrian Wilding, 2020-12-10 Revolutionary Recognition represents a major contribution to contemporary political theory It argues that human emancipation is only possible in a society characterised by mutual recognition In present day political theory the term recognition has become popular and widely discussed but has become synonymous with reformist scenarios such as social democratic politics and the politics of identity Richard Gunn and Adrian Wilding undertake a comprehensive critique of existing understandings of recognition particularly those of Axel Honneth and Charles Taylor returning recognition to its original meaning in the work of Hegel and Marx and showing how mutual recognition has revolutionary rather than merely reformist implications Gunn's and Wilding's work is unapologetically political and introduces a new principle mutual recognition around which radical politics can organise This book is a ground breaking contribution to left wing theory and is relevant as both a scholarly text and a rallying cry to the Left

*Marxism-Leninism as the Civil Religion of Soviet Society* James Thrower, 1992 This study examines the phenomenon of Marxism Leninism from a perspective of the history of religions in order to cull the lessons that students of both religion and society might draw from the collapse of that once seemingly impregnable ideology After considering the reasons advanced by a variety of scholars for calling Marxism Leninism a religion as well as at Marxism Leninism's own claim to be a science the author suggests that a more fruitful way of looking at it would be as a form of civil religion
