## Hackney At War:

*Hackney at War* Jennifer Golden, 2009 The Second World War had a dramatic impact on Stoke Newington Shoreditch and Hackney This fascinating book tells the story of how six years of war affected the daily lives and living conditions of the people of the area Jennifer Golden has drawn on wartime newspaper reports graphic personal recollections and official records to recreate the special atmosphere of the time and to show how ordinary people reacted to the challenge represented by this remarkable period in Hackney s recent past The story begins in the 1930s at the time of the Munich crisis abroad and clashes between fascists and communists at home It recalls the outbreak of hostilities the organization of Civil Defence workers across the borough and the widespread destruction caused by the Blitz From the realities of rationing through to vivid descriptions of the V1 and V2 missile attacks and eventually the celebrations of VE and VJ days this incredible narrative and collection of images pays tribute to the ordinary non combatants men women and children who displayed great reserves of endurance and courage throughout the conflict

*Memorials of the Great War in Britain* Alex King, 2014-03-04 Taking as its focus memorials of the First World War in Britain this book brings a fresh approach to the study of public symbols by exploring how different motives for commemorating the dead were reconciled through the processes of local politics to create a widely valued form of collective expression It examines how the memorials were produced what was said about them how support for them was mobilized and behaviour around them regulated These memorials were the sites of contested multiple and ambiguous meanings yet out of them a united public observance was created The author argues that this was possible because the interpretation of them as symbols was part of a creative process in which new meanings for traditional forms of memorial were established and circulated The memorials not only symbolized emotional responses to the war but also ambitions for the post war era Contemporaries adopted new ways of thinking about largely traditional forms of memorial to fit the uncertain social and political climate of the inter war years This book represents a significant contribution to the study of material culture and memory as well as to the social and cultural history of modern warfare
