Hal Hartley:

The Cinema of Hal Hartley Steven Rybin, 2016-12-27 Over the course of nearly thirty years Hal Hartley has cultivated a reputation as one of America's most steadfastly independent film directors. From his breakthrough films *The Unbelievable Truth* (1989), *Trust* (1990) and *Simple Men* (1992) to his recently completed *Henry Fool* trilogy, Hartley has honed a rigorous, deadpan and instantly recognizable film style informed by both European modernism and playful revisions of Classical Hollywood genres. Featuring new essays on this important director and his films, this collection explores Hartley's work from a variety of aesthetic, cultural and economic contexts while also looking closely at his collaborations with actors, the contexts of his authorial reputation, his reworking of the romantic comedy and other genres, and the shifting economics of his filmmaking. This book, up to date through Hartley's latest film *Ned Rifle* (2014), includes new scholarship on the director's early work as well as reflections on his cinema in connection with new theories and approaches to independent filmmaking. Covering the entire trajectory of his career, including both his features and short films, the book also includes new readings of several of Hartley's seminal films, including *Amateur* (1994), *Flirt* (1995) and *Henry Fool* (1997). *Hal Hartley* Mark L. Berrettini, 2011-01-13 Since the late 1980s, Hal Hartley has challenged standards of realist narrative cinema with daring narrative constructions, character development, and the creation of an unconventional visual world. In this pioneering critical overview of his work and its cultural/historical context, Mark L. Berrettini discusses seven of Hartley's feature films: *Drawing on Journalism*, theories of representation, narrative and genre, and cinema history. Berrettini discusses the absurdist/comedic representation of serious themes in Hartley's films: impossible love, coincidence, and human relations; extreme isolation and the restrictions posed by gender norms. He notes how these themes reappear within framing narratives that shift from the seemingly mundane in Hartley's earliest works to the vibrantly creative and fantastic in his later films. Employing close analysis and theories related to cinematic narrative and realism, the book considers aspects of American independent cinema and postwar European cinema: antirealism and minimalism. The volume concludes with a pair of in-depth interviews with the director from two distinct points in his career. Back cover *Performance in the Cinema of Hal Hartley*, **The Cinema of Hal Hartley** Sebastian Manley, 2013-07-18 One of the most significant contributors to the American independent cinema that developed over the late 1980s and 1990s, Hal Hartley has throughout his career created films that defy convention and capture the stranger realities of modern American life. *The Cinema of Hal Hartley* looks at all of Hartley's film releases, from cult classics such as *The Unbelievable Truth* and *Trust* to oddball genre experiments such as *No Such Thing* and *Fay Grim* to short films such as *Opera No. 1* and *Accomplice* and makes a case for seeing Hartley as an important and successful American auteur, despite the director's decline in status in the later stages of his career. Employing both industrial and close textual analysis, the book considers aspects of Hartley's work such as genre, gender, and form, as well as dimensions far less frequently discussed in studies of indie directors, such as place and cultural identity, offering a broad and innovative study of a

productive filmmaker who continues to show a singular disregard for the expectations of both the mainstream and the indie cinema industries

True Fiction Pictures and Possible Films Hal Hartley, 2008-10-07 Hal Hartley's comedies and explorations of mismatched love and misplaced trust have been provocative must sees for the past two decades with critics and audiences alike Given the range and depth of his interests along with the decidedly rigorous pursuit of a deeply felt aesthetic his films are as difficult to classify as they are easy to recognize and they have been widely recognized as a singular achievement in American filmmaking In this book of interviews conducted by professor and film writer Kenneth C Kaleta Hartley reflects on the evolution of his filmmaking elaborating on the forces that help shape it and the ways in which his aspirations develop as time goes on revealing a good deal of what it is to be an independent creative artist in a relentlessly commercial culture Exquisitely designed with numerous full color photographs and a complete illustrated filmography *True Fiction Pictures and Possible Films* is an invaluable resource for anyone interested in Hartley's filmmaking in particular and motion pictures in general
