## Course Description

This course of study is designed to teach students about the therapeutic, diagnostic, health informatics, support services, and biotechnology research and development pathways in the health science career cluster.

This course focuses on health careers exploration, healthcare systems, leadership, employability, and communication skills. Students will develop a concept of health maintenance practices, safety, teamwork, and

*All school rules also apply.*

## Classroom Expectations and P&P

I expect each student to have personal responsibility and respect for everyone in the classroom. I expect all students to arrive to class on time, follow the student handbook rules and to take initiative in their learning process. I am simply a facilitator in this educational endeavor and I expect students to use me as a resource not only for this class but other classes and life lessons. I encourage personal responsibility and believe that hard work pays off. It won't be easy, but it will be worth it. I have first block planning period and am available for tutoring by appointment only. I am the assistant athletic trainer at SHS so afterschool appointments will be worked around the athletic events schedule.
