## Generation Apart:

**The Successor Generation** Stephen F. Szabo, 1983      **Generational Tensions and Solidarity Within Advanced Welfare States** Asgeir Falch-Eriksen, Marianne Takle, Britt Slagsvold, 2021-09-12 This book explores generation as both a reference to family or kinship structures and a reference to cohorts or age sets The principal objective is branching out this two part concept through studies of tensions and solidarity within and between generations of advanced and robust welfare states Answering key questions using multiple disciplinary approaches the book considers how generations challenge advanced and robust welfare states how new and young generations are affected by living in an advanced welfare state with older generations how tensions or solidarity are understood when facing challenges and what the key characteristics are of certain generation types It contributes to the development of a more comprehensive generation approach within social sciences by developing the concept of generation by exploring different challenges to the welfare state such as migration digitalization environmental damages demands for sustainability and marginalization Highlighting the escalating tensions and altered versions of solidarity between generations this book shows how a comprehensive concept of a generation can create new insights into how we collectively coordinate and resolve challenges through the welfare state It will be of interest to all scholars and students of social policy sociology political science and social anthropology      *Kinship and Social Organisation (Routledge Revivals)* W. H. R. Rivers, 2012-07-26 First published in 1914 W H R Rivers hugely influential study was the first to effectively demonstrate the close connection between methods of denoting relationship or kinship and forms of social organisation including those based on different forms of the institution of marriage He also shows that the terminology of relationship has been rigorously determined by social conditions and that therefore systems of relationship furnish us with a most valuable instrument in studying the history of social institutions This series of lectures was originally delivered by the author in May 1914 at the London School of Economics They are based on the experiences of the Percy Sladen Trust Expedition to Melanesia in 1908      *The Housing Divide* Emily Rosenbaum, Samantha R. Friedman, 2007 This is an examination of the generational patterns in New York City s housing market and neighbourhoods along the lines of race and ethnicity The text provides an analysis of many immigrant groups in New York providing an understanding of the opportunities and discriminatory practices at work from one generation to the next      *"The" Westminster Review*, 1897  
*Bulletin* South Africa. Department of Agriculture, 1919      *The Eugenics Review*, 1925      **A Grammar of the Seneca Language** Wallace L. Chafe, 2015 The Seneca language belongs to the Northern Iroquoian branch of the Iroquoian language family where its closest relatives are Cayuga Onondaga Oneida Mohawk and Tuscarora Seneca holds special typological interest because of its high degree of polysynthesis and fusion It is historically important because of its central role in the Longhouse religion and its place in the pioneering linguistic work of the 19th century missionary Asher Wright This grammatical description which includes four extended texts in several genres is the culminatin of Chafe s long term study of

the language over half a century The Archaeology of Events Zackary I. Gilmore, Jason M. O'Donoghue, 2015-03-31 These perspectives are applied to a broad range of archeological contexts stretching across the Southeast and spanning more than 7 000 years of the region s pre Columbian history New data suggest that several of this region s most pivotal historical developments such as the founding of Cahokia the transformation of Moundville from urban center to vacated necropolis and the construction of Poverty Point s Mound A were not protracted incremental processes but rather watershed moments that significantly altered the long term trajectories of indigenous Southeastern societies In addition to exceptional occurrences that impacted entire communities or peoples Southeastern archaeologists are increasingly recognizing the historical importance of localized everyday events such as building a house crafting a pot or depositing shell **Spirit, Soul, and Flesh** Ernest DeWitt Burton, 1918 The Presbyterian , 1906 **The British Homoeopathic Review** , 1893 *Sweet Charlie, Dike, Cazzie, and Bobby Joe* Taylor H.
