***Pakistan Development Review***, 2007

**Issues in Pakistan's Economy** S. Akbar Zaidi, 2005 This book is the main text for post graduate courses on South Asia's development economic history and on its political economy For researchers on Pakistan's economy it is the key source for reference and covers a huge and diverse array of data literature reviews commentary and analysis

**The Pakistani Economy** Robert E. Looney, 1997-09-16 Provides an assessment of Pakistan's experience with economic reforms during the period from the late 1970s to the early 1990s and examines the country's policy options to the year 2000 Includes a chapter on Islamic modes of financing

**Bringing Finance to Pakistan's Poor** Tatiana Nenova, Cecile Thioro Niang, Anjum Ahmad, 2009-11-13 Although access to financing in Pakistan is expanding quickly it is two to four times lower than regional benchmarks Half of Pakistani adults mostly women do not engage with the financial system at all and only 14 percent have access to formal services Credit for small and medium size enterprises is rationed by the financial system The formal microfinance sector reaches less than 2 percent of the poor as opposed to more than 25 percent in neighboring countries Yet it is the micro and small businesses along with remittances that help families

escape the poverty trap and participate in the economy Bringing Finance to Pakistan s Poor is based on a pioneering and comprehensive survey and dataset that measures the access to financial products by Pakistani households The survey included 10 305 households in all areas of the country excluding the tribal regions The accompanying CD contains summary statistics The authors develop a picture of access to and usage of financial services across the country and across different population groups and they identify policy and regulatory priorities Reform measures in Pakistan have been timely but alone are not enough financial institutions have lagged behind in adopting technology segmenting customer bases diversifying products and simplifying processes and procedures Gender bias and low levels of financial literacy remain barriers as is geographical remoteness However the single strongest cause of low financial access is lack of income not location education or even gender Bringing Finance to Pakistan s Poor will be of great interest to readers working in the areas of business and finance economic policy gender and rural development and microfinance *Social Development in Pakistan* ,1999 *Fifty Years of Pakistan's Economy* Shahrukh Rafi Khan,2000-10-12 This volume reviews the fifty years of Pakistan s economy representing the case history of a country as a laboratory where currently fashionable economic ideas have been imported and tried out Pakistan's Economy at the Crossroads Parvez Hasan,1998 This book by the former chief of the World Bank Mission in Central Asia presents an assessment of Pakistan s economic record and performance over the last fifty years Hasan examines the role of politics and economic policies in explaining Pakistan s development experience and highlights the sources of present economic difficulties A unique feature of the book is that the analysis of the period prior to separation presents trends for East and West Pakistan separately and focuses on inter regional economic issues that became so divisive in the final years of united Pakistan Drawing on these past lessons the book also presents an agenda for policy and institutional reform for the future **Pakistan: 1997** Craig Baxter,Charles H Kennedy,1998-03-19 Pakistan has undergone a number of significant changes in the past two years including a complete change in government Contributors to this up to the minute volume provide insight into both Pakistan s optimistic prospects and its threatening problems as they have unfolded over the past two years These illuminating essays are enhanced by a detailed chronology of the events of 1996 1997 *Pakistan* Ishrat Husain,1999 An insightful case study of Pakistan s economic development during the past fifty years which demonstrates that the benefit of this development has predominantly affected a small class of elites while the majority of the population remains illiterate poor and backward *Government of Pakistan Debt Auctioning System and the Evolution of a Tradeable Securities Market* Rehmat Ali Hasnie,Saeed Iqbal,1992 *Human Development in South Asia* 1999 ,1999 Liberalization, Growth, and the Asian Financial Crisis Mohamed Ariff,Ahmed M. Khalid,2000 This timely book examines the effects of financial liberalization in the more advanced economies of Southeast Asia The book also analyses the degree to which emerging and transitional economies in East and South Asia can benefit from this example The weakness of the banking sector is examined in order to explain the reasons behind the currency crisis and to prescribe policies to avoid a

similar episode in the future Further the book documents the individual steps taken to liberalize the economies over a period of about 20 30 years in each country The analyses reveal that liberalization led to high growth in economies undertaking such reforms while unwillingness to take such reforms appear to have led to poor growth and hence low social development This finding contradicts the common belief that liberalization led to the financial crisis and then to growth collapse An efficient and liberalized financial sector is an essential precondition for promoting and accelerating economic growth and welfare Arguments supporting this policy are based on the experience of Southeast Asian economies particularly the pioneers such as Malaysia Singapore Indonesia and Thailand This has led some less developed countries in East and South Asia to initiate the process of financial sector reforms and to realize the potential benefits of such reforms The authors analyse the reform process and the lessons to be drawn from the experiences of these economies in their quest for sustained development in East and South Asia
