This is a new release of the original 1934 edition      **Extra Sensory Perception** Joseph Banks Rhine,J B Rhine Ph  
D,2008-07-09 This is the ground breaking scientific work by Dr J B Rhine Ph D from Duke University Dr Rhine s experiments  
involving telepathy clairvoyance and precognition used specially designed cards called Zener cards Using exact calculations  
it is possible to determine how improbable it would be to guess an excess number of cards correctly Within 10 years 33  
experiments had been performed involving almost one million trials with protocols which rigorously excluded possible  
sensory clues Twenty seven of the 33 studies produced statistically significant results an exceptional record Furthermore  
positive results were not restricted to Rhine s lab In the years following Rhine s first publication 33 independent replication  
experiments were conducted at different laboratories Twenty of these were statistically significant      Models and  
Experiences of Extra Sensory Perception Vitaly Bolnokin, Van Lu Nguyen,2016-01-07 The book is devoted to the phenomenon  
of extrasensory perception Given current scientific interpretations and criticisms of the phenomenon Great place is of

introduction to the issue and new including unique materials      **Extrasensory Perception** Fabian Gudas,1961      *Husserl*  
*and the Sciences* Richard Feist,2004 Edmund Husserl 1859 1938 is one of the previous century s most important thinkers  
Often regarded as the Father of phenomenology this collection of essays reveals that he is indeed much more than that The  
breadth of Husserl s thought is considerable and much remains unexplored An underlying theme of this volume is that  
Husserl is constantly returning to origins revising his thought in the light of new knowledge offered by the sciences

the Medulla Obligation is much more complicated that that of gravity yet no less powerful and no less consistent You cannot  
escape her designs on your life but you can flow with her and learn to recognize both advantages and pitfalls inherent and  
inevitable in human interaction The Medulla Obligation will show you that you can affect the outcome of you relationships  
through a tilt in your perception You can learn when to interact and when to quietly disengage when your gifts are yours or  
are to be taken from you You can learn how to make the best of your turns at bat in life to make a difference for you and  
those important to you and how to keep yourself viable beyond established expectations She has no flexibility and has no  
reliance on the quality of the partners she pressures together The test of that union is the survivability and behavioral
