Pass Carol M. Ciotto, Dr. Marybeth H. Fede, 2015-05-18 Whether an administrator faculty member classroom teacher or special area teacher everyone wants to see their students learning improve Improved learning validates the roles and influences of educators and administrators The purpose of this book is to assist educators in how to create a physically active school Understanding the role physical activity and or movement plays in the gymnasium and the classroom will contribute significantly to this effort Movement helps to differentiate instruction by increasing retention motivation attention and engagement in the learning process It should be utilized for its full potential benefits in

both the classroom and gymnasium The solution begins and ends with the decisions we make Children are not getting as much physical activity as they should despite the many benefits It is important to establish good physical activity habits as early as possible So how do we do that By making physical activity and quality physical education a part of your schools culture by increasing the amount of physical activity students participate in throughout the day every day It is critical that we take the steps now to educate and make a change in our students lives to help them lead a healthier more productive life
