The Polish Humboldtian University in the Face of Paradigmatic Change Aleksander Kobylarek, 2017-03-07 The Polish university is based on the Humboldt model and can serve as a typical example of liberal education throughout Central and Eastern Europe This book portrays an institution resistant to change and defying all attempts at reform Currently it is attempting to retain its identity with no regard to the rapidly changing world of science culture and communication technologies that surrounds it The absolute power of the professor excessive administration and feudal subordination mean that such universities have lost touch with the local environment and have become a factory for graduates with a random education Power games and resentment have replaced the search for scientific truth which in turn means that such institutions are practically invisible in the rankings because of the lack of significant achievements This situation has led to proposal here of a redefinition of the function of the university based on a thorough analysis of needs of all its various groups of stakeholders

The Face of the Firm Michele Rene Gregory, 2016-02-12 Despite decades of greater gender awareness at work in Western countries gender inequality in the executive suites is alive and well The Face of the Firm highlights new critical perspectives on the relationship between hegemonic masculine cultures gender embodiment and gender disparities in corporate organizations Using data from over 100 interviews with female and male executives who worked for some of the most prestigious advertising and computer firms in the world the book makes important connections between the empirical data and contemporary sexism in the United States and United Kingdom The book refocuses the debate of executive work organizational spaces and gender inequality on gendered bodies at work It also demonstrates that gendered and sexualized relations among executives often construct the production process The book makes a contribution to masculinity gender and work scholarship and is organized along three key concepts homogeneity homosociability and heterosexuality These address such factors as the organizational locker room sexual and heterosexual spaces at work and the construction of women and men as different workers This conceptual model is crucial for evaluating the mechanisms that support male dominance among highly skilled professionals and executives

The Face of Another Kobo Abe, 2011-12-14 Like an elegantly chilling postscript to The Metamorphosis this classic of postwar Japanese literature describes a bizarre physical transformation that exposes the duplicities of an entire world The narrator is a scientist hideously deformed in a laboratory accident a man who has lost his face and with it his connection to other people Even his wife is now repulsed by him His only entry back into the world is to create a mask so perfect as to be undetectable But soon he finds that such a mask is more than a disguise it is an alternate self a self that is capable of anything A remorseless meditation on nature identity and the social contract The Face of Another is an intellectual horror story of the highest order

The Changing Face of Warfare in the 21st Century Gregory Simons, Iulian Chifu, 2017-07-20 This study discusses salient trends demonstrated by contemporary warfare of these first years of the 21st century The authors reinforce previous notions

of Fourth Generation Warfare but most importantly explore the workings of new components and how these have modified the theory and practice of warfare beyond the basic divisions of conventional and unconventional warfare as witnessed in the preceding century Throughout history there has been a close interaction between politics communication and armed conflict and a main line of investigation of this book is to track changes that are presumed to have occurred in the way and manner in which armed conflicts are waged Using cogent examples drawn variously from conflicts of the Arab Spring the Islamic State and Russian adventurism in South Ossetia Crimea and Eastern Ukraine the authors demonstrate the application of Information Warfare the practice of Hybrid Warfare and offensive use of diplomacy communications economics and international law to obtain political and military advantages against the status quo states of the international community The authors combine a theoretical framework with concrete empirical examples in order to create a better understanding and comprehension of the current events and processes that shape the character of contemporary armed conflicts and how they are informed and perceived in a highly mediatised and politicised world *Security and Defence: Ethical and Legal Challenges in the Face of Current Conflicts* Juan Cayón Peña,2022-03-17 This book aspires to face the challenge of analyzing with due academic rigor always in the paradigm of security and advanced sciences but without forgetting the ethical questions that our world raises every day The work is divided into two main sections the first section is focused on the cyber world with not only technical but also legal derivations given the expansion of vulnerabilities and our technological dependence The second section with a more interdisciplinary nature runs through undeniably topical issues such as territorial problems and the potential decline of the traditional States the communicational impact of information management and false news or the commitment to essential freedoms for the West This book connects advanced technologies and ethical issues and includes discussions on recent crises such as COVID 19 It also provides an interdisciplinary view on the ethical issues for security technologies **Off the Face of the Earth** Lester Bodine,1894

The Final Blasphemy to the Face of an Angry God Gary Brannock,2011-06-23 Just what was the Lost Ark of the Covenant Was it just an elaborately designed golden layered box that carried the Ten Commandments The Bible's book of Exodus states that God communed with His chosen people by speaking through Moses when he sat on the mercy seat of the Ark **On the Face of the Waters** Flora Annie Webster Steel,1897 *The Lancet* ,1910 *Twentieth Century Encyclopædia* Charles Morris,1912 *Grain World* ,1905 *The Central literary magazine* Birmingham central literary assoc,1875 **County of Christian, Kentucky** William Henry Perrin,1884 *Tinsley's Magazine* ,1873 *The Ebeling-Riggle Discussion* F.
