

MATURITY

DEFINITION

Maturity is the capacity to respond to the environment with awareness, wisdom, and equanimity. It is the ability to make decisions based on long-term outcomes rather than immediate impulses. Mature individuals take responsibility for their actions, understand the implications of their choices, and prioritize the well-being of themselves and others.

EXAMPLES

- **Emotional Self-regulation:** A mature person remains calm when faced with stressful situations, rather than resorting to anger or impulsive reactions.
- **Empathy towards Others:** Instead of simply focusing on their own needs, a mature individual can understand and respect the feelings of others.
