The Routledge Companion to Planning in the Global South Gautam Bhan,Smita Srinivas,Vanessa Watson,2017-09-11 The Routledge Companion to Planning in the Global South offers an edited collection on planning in parts of the world which more often than not are unrecognised or unmarked in mainstream planning texts In doing so its intention is not to fill a gap that leaves this mainstream unquestioned but to re theorise planning from a deep understanding of place as well as a commitment to recognise the diverse modes of practice that come within it The chapters thus take the form not

of generalised universal analyses and prescriptions but instead are critical and located reflections in thinking about how to plan act and intervene in highly complex city regional and national contexts Chapter authors in this Companion are not all planners or are planners of very different kinds and this diversity ensures a rich variety of insights primarily based on cases to emphasise the complexity of the world in which planning is expected to happen The book is divided into a framing Introduction followed by five sections planning and the state economy and economic actors new drivers of urban change landscapes of citizenship and planning pedagogy This volume will be of interest to all those wanting to explore the complexities of planning practice and the need for new theories of knowledge from which to draw insight to face the challenges of the 21st century
