First Amendment Cases Comments Questions:

The First Amendment Steven H. Shiffrin, Jesse H. Choper, 2006 This book is designed for a two or three unit course in the First Amendment The authors present the materials in a way that permits instructors to depart from the organization of the casebook with relative ease The authors also try to expose students to original perspectives or perspectives they might otherwise miss Notes and questions enable students to study the variety of competing views embodying the First Amendment as they emerge from concrete cases rather than from abstract characterization and classification imposed on the student at the outset of the study The First Amendment, Cases--Comments--Questions JESSE H.. SCHAUER CHOPER

(FREDERICK.), Frederick Schauer, 2019-06-28 This widely adopted soft cover casebook adapted from Choper Dorf Fallon and Schauer s Constitutional Law but with numerous additional references and comments is designed for a two or three unit course in the First Amendment The new Seventh Edition has been thoroughly revised tightened and updated The authors present the materials in a way that permits instructors to depart from the organization of the casebook with relative ease The authors also expose students to original perspectives or perspectives they might otherwise miss Notes and questions enable students to study the variety of competing views embodying the First Amendment as they emerge from concrete cases rather than imposing an abstract characterization and classification on the student at the outset of the study And the extensive references help students to situate the cases within larger academic and theoretical debates The new edition of the casebook contains a revised organization of the basic freedom of speech materials on content regulation forum analysis and the coverage scope of the First Amendment and further includes hundreds of new cases and references There has been substantial editing to make way for the new material and thus the book remains of appropriate size for either a two or three unit course The new speech cases cover issues involving the types of content regulation Reed v Town of Gilbert government speech Walker v Texas Division Sons of Confederate Veterans racist speech Matal v Tam commercial speech Expressions Hair Design v Schneiderman compelled expression Janus v AFSCME and National Institute of Family and Life Advocates v Becerra and government motive Heffernan v City of Paterson On freedom of religion the 7th edition adds extensive coverage of the new cases involving argued hostility to particular religions or religious beliefs Masterpiece Cakeshop v Colorado Civil Rights Commission and Trump v Hawaii while also providing materials to facilitate discussion and analysis of questions regarding claimed exemptions from laws of general application **First Amendment-Cases, Comments, Questions,**

Shiffrin, Jesse H. Choper, 1991 **Constitutional Law; Cases, Comments, Questions** William B. Lockhart, 1964 **The Law of Church and State in the Supreme Court Revisited** David M. Ackerman, Kimberly D. Jones, 2006 The religion

clauses of the First Amendment provide that Congress shall make no law respecting an establishment of religion or prohibiting the free exercise thereof In modern times the Supreme Court has frequently construes these clauses to create in Thomas Jefferson s oft quoted metaphor a wall of separation between church and state The Court s decisions have precipitated substantial opposition and in particularly since the election of Ronald Reagan to the Presidency in 1980 a concerted and partly successful effort to change its separatist constructions of the religion clauses This volume summarises the doctrinal debates and shifts on the religion clauses that have occurred on the Court during this period It summarises and examines as well the legal effect of each of the 56 decisions the Court has handed down concerning church and state since 1980

Freedom of Expression Stephen A. Smith,2018 The texts in this volume represent earlier contributions to the ongoing conversation about the meaning of the freedom of speech and of the press collected and selected to help the reader situate and understand what has gone on before and to advance the contemporary argument in a more informed way

[Access-right](#) Zohar Efroni,2011 Copyright law has become the subject of general concerns that reach beyond the limited circles of specialists and prototypical rights holders The role scope and effect of copyright mechanisms involve genuinely complex questions Digitization trends and the legal changes that followed drew those complex matters to the center of an ongoing public debate In Access Right The Future of Digital Copyright Law Zohar Efroni explores theoretical normative and practical aspects of premising copyright on the principle of access to works The impetus to this approach has been the emergence of technology that many consider a threat to the intended operation and perhaps even to the very integrity of copyright protection in the digital setting It is the ability to control digital works already at the stage of accessing them by means of technological protection measures The pervasive shift toward the use of digital technology for the creation dissemination exploitation and consumption of copyrighted material warrants a shift also in the way we perceive the structure of copyright rules Premising the copyright order on the concept of digital access first calls for explaining the basic components of proprietary access control over information in the abstract The book then surveys recent developments in the positive law while showing how the theoretical access right construct could explain the logic behind them Finally the book critically analyzes existing approaches to curbing the resulting problems of imbalance and overprotection which are said to disadvantage users In conclusion the book advocates for a structural overhaul of our current regulative apparatus The proposed reform involves a series of changes in the way we define copyright entitlements and in the way in which those entitlements may interrelate within a single coherent scheme **1973 Supplement to Third Editions of Constitutional**

Law: Cases, Comments, Questions William B. Lockhart, Yale Kamisar, Jesse H. Choper, 1973 **A Companion to the United States Constitution and Its Amendments** John R. Vile, 2025-07-24 Charting 250 years of history the 8th edition of this constitutional companion shows students just how revolutionary the Constitution was and how relevant it remains today After revisiting the key events leading to the Constitution's ratification including the drafting of the Declaration of Independence and the proceedings of the Constitutional Convention this book explores the Constitution article by article and amendment by amendment to help readers better understand how each section of the document shapes the America we live in today The 8th edition illuminates how recent laws political debates and Supreme Court decisions are continually reshaping our understanding of the Constitution and its role in American life and society including such issues as Donald Trump's immunity from prosecution for the January 6th riots Mike Pence's role in certifying Electoral College votes Ketanji Brown Jackson's appointment to the Supreme Court and the Dobbs decision among other controversial developments The Constitutional Underclass Evan Gerstmann, 1999-04 When the Supreme Court struck down Colorado's Amendment 2 which would have nullified all state and local laws protecting gays and lesbians from discrimination it was widely regarded as a victory for gay rights Yet many gays and lesbians still risk losing their jobs custody of their children and even their liberty under the law Using the Colorado initiative as his focus Gerstmann untangles the complex standards and subtle rhetoric the Supreme Court uses to apply the equal protection clause The Court divides people into legal classes that receive varying levels of protection gays and lesbians and other groups such as the elderly and the poor receive the least Gerstmann reveals how these standards are used to favor certain groups over others and also how Amendment 2 advocates used the Court's doctrine to convince voters that gays and lesbians were seeking special rights in Colorado Concluding with a call for wholesale reform of equal protection jurisprudence this book is essential reading for anyone interested in fair coherent and truly equal protection under the law Cases, Problems, and Materials on Payment Systems Peter A.
