The Epic of Gilgamesh Sam Kuraishi, 2012 The Epic of Gilgamesh is the oldest documented story in the history of humankind And after 4000 years from its inception we can still relate to its message for its striking account on human condition bright or bleak which we have to deal with in our daily life love and relationship life and death tyranny and ruthlessness and soul searching Although The Epic of Gilgamesh roots cultivated in Mesopotamia however its thematic message is still relevant to our daily life The personal relationship in our daily life the value of friendship the lose of loved one the pesuit of happiness the quest for longevity the conflict between logic and illusion are shaping our daily life Sam Kuraish s adaptation of The Epic of Gilgamesh is different than othe versions He clarified and substituted some achaic words that are troubling the reader of modern poetry He also worked some lines into simplified free verse When appropriate he used dialogue in his adaptation He used a style of free verse that dosn t follow a regular patern or a steady backbeat as well as combining short and long lines as

Frank Ohara and Allen Ginsburg did it with harmony He also used initial repetition anaphora as walt Whitman did in Leaves
od Grass Regardless of what it was altered or what liberty Sam Kuraishi has taken in his composition of the epic he
coherently retained the thematic basis of the epic This is the story that exhibits a striking meaning of life and death of love
and friendship and of one s deeds This is the story of Gilgamesh king of Uruk Erik in The Book of Genesis the greatest city of

Jastrow,2016-08-25 The Epic of Gilgamesh is an epic poem from ancient Mesopotamia Dating from the Third Dynasty of Ur
circa 2100 BC it is often regarded as the earliest surviving great work of literature The literary history of Gilgamesh begins
with five Sumerian poems about Bilgamesh Sumerian for Gilgamesh king of Uruk These independent stories were later used
as source material for a combined epic The first surviving version of this combined epic known as the Old Babylonian version
dates to the 18th century BC and is titled after its incipit Sh tur eli sharr Surpassing All Other Kings Only a few tablets of it
have survived The later Standard version dates from the 13th to the 10th centuries BC and bears the incipit Sha naqba muru
He who Saw the Deep in modern terms He who Sees the Unknown Approximately two thirds of this longer twelve tablet
version have been recovered Some of the best copies were discovered in the library ruins of the 7th century BC Assyrian king

,2018-11-30 The Apocalypse of Enoch and Bhu unda The Apocalypse of Enoch and Bhu unda challenges the underlying
assumptions of the classical roots of civilization by restoring the original context of creation mythology In this second volume
of A Chronology of the Primeval Gods and the Western Sunrise ancient myths from multiple geographies are correlated to
spikes in cosmic rays over the past 120 000 years as documented in ice core data The chronology and content of these myths
tell us that the primary forces behind these cataclysms were the most ancient gods hyper nova at the Galactic Center
associated with Sgr A The Dragon Sgr West The Beast and Sgr East Hirany ksha and Hiranyakas ipu with secondary
supernova seen as the birth of new destructive gods Ancient myth has documented the cataclysmic destruction of the world
on at least twenty occasions with four major geo polar migrations which has resulted in a shift of the earth s equator on at
least one occasion Multiple myths are shown to represent a view of the sky that can only be seen from the Antarctic region
Multiple versions of the myths of Orion are analyzed showing clear linkages between the Vedic myth of Trisanku the Book of

Genesis Senmut's Tomb and the myths of Prajapati Daksa representing the oldest version of the Orion myth older than Trishanku and Genesis by 20 000 years The stunning conclusion explains how the Watchers of Enoch were the Vedic descendants of Ila and Ikshvaku These descendants of the seventh Manu had been observing and recording the stars as a source of cataclysm for at least 15 000 years prior to Enoch thus allowing Enoch to prophesize a new heaven That prophecy became the foundation for St John's Book of Revelations which is shown to be a description of a series of cataclysms attributed to Sgr West The book offers a new theory for explaining geo polar migration That theory suggests small shifts in the location of the earth's center of gravity underlie each migration but that there are multiple causes for the shifts

Silhouettes of Scripture David B. Schreiner, Drew S. Holland, 2023-06-12 The contextual approach and form criticism are two well established methodologies in Biblical Studies but the natural affinities between the two have historically gone under appreciated Yet the substantial reconsideration of classic tenets of form criticism that has transpired in recent memory has further separated these two like minded methods Through a series of case studies that carefully consider certain Old Testament texts contextually Silhouettes of Scripture Considering the Contextual Approach with Form criticism considers important methodological critiques and fuse elements of both methods in order to not only refocus natural affinities but also more precisely define how contextual studies could proceed Initiated by a literary trigger Schreiner and Holland's method navigates between what has been called parallelomania and parallelomania to consider a range of similarities and differences in terms of broad and narrow convergences The result is a work that not only looks upon well known parallels with fresh eyes but also seeks to establish new trajectories
