the digital age and doesn't serve the best interests of viewers. The Code on Scheduling of Television Advertising should be harmonised to level the playing field between public service and commercial broadcasters when Digital Switchover happens in 2012. It is the Committee's view that a reduction in the quantity of advertising airtime that broadcasters are allowed to sell would greatly improve the viewer experience and would be fairer to the public service broadcasters ITV 1, Channel 4 and Channel 5 who are limited more than all other commercial channels at the moment. All channels should be allowed an average of 7 minutes per hour appropriate peak time maximum to be determined after research from Ofcom. The Committee has also looked at specific regulations which affect ITV 1 known as the Contract Rights Renewal undertakings. These undertakings should be removed as long as they are replaced with binding undertakings from ITV plc to invest an appropriate proportion of any additional revenues from advertising in creating UK originated programming and training. The Committee is calling on ITV's bosses to deliver on the commitments they have made to the Committee to increase its investment on quality UK originated programming in return for the removal of CRR and also to invest in training within the industry.

Now in its 179th edition, Laxton's has become a firm favourite in the UK Building Industry. With more prices and more in depth build ups, Laxton's offers more practical and complete information than any other price book available. This new edition takes into account major price variations that stem from raw material costs in the last few months. Higher fuel costs have impacted on prices across the board in particular costs of non-ferrous metals. Increased Copper sheet and pipe show price increases of well above 50% in the last year while zinc, lead and aluminium prices have also risen significantly. There are savings in plaster and drainage goods prices are down. All the prices in Laxton's are based on the new 3 year Construction Industry Joint Council wage rate agreement that came into force at the end of June 2006. Saving you time, comprehensive basic price and approximate estimating sections make putting together outline costings quicker and easier. Saving you effort, all the information you need on each measured item is clearly set out on a single page with a full break down of costs. Saving you money, all 250,000 prices are individually checked and updated to make sure that your tender costs are precise.
