Feminist Periodicals , 2004 **Seeing Nature Through**

Gender Virginia Scharff, 2003 Environmental history has traditionally told the story of Man and Nature. Scholars have too frequently overlooked the ways in which their predominantly male subjects have themselves been shaped by gender. Seeing Nature through Gender here reintroduces gender as a meaningful category of analysis for environmental history, showing how women's actions, desires, and choices have shaped the world and seeing men as gendered actors as well. In thirteen essays that show how gendered ideas have shaped the ways in which people have represented, experienced, and consumed their world, Virginia Scharff and her coauthors explore interactions between gender and environment in history. Ranging from colonial borderlands to transnational boundaries, from mountaintop to marketplace, they focus on historical representations of humans and nature, on questions about consumption, on environmental politics, and on the complex reciprocal relations among human bodies and changing landscapes. They also challenge the ecofeminist position by challenging the notion that men and women are essentially different creatures with biologically different destinies. Each article shows how a person or group of people in history have understood nature in gendered terms and acted accordingly, often with dire consequences for other people and organisms. Here are considerations of the ways we study sexuality among birds, of William Byrd's masking sexual encounters in his account of an eighteenth-century expedition, of how the ecology of fire in a changing built environment has reshaped firefighters' own gendered identities. Some are playful, as in a piece on the evolution of snow bunnies to shred bunnies. Others are dead serious, as in a chilling portrait of how endocrine disruptors are reinventing humans, animals, and water systems from the cellular level out. Aiding and adding significantly to the enterprise of environmental history, Seeing Nature through Gender bridges gender history and environmental history in unexpected ways to show us how the natural world can remake the gendered patterns we've engraved on ourselves and on the planet. *The London reader of literature, science, art, and general information. Feminist Studies, 2001

The Jossey-Bass Reader on Gender in Education, 2002-04-29 Is biology destiny? Are schools shortchanging girls or boys? If so, what can educators do to ensure that both succeed? These are among the questions confronting teachers of students of all ages. The Jossey-Bass Reader on Gender in Education is a comprehensive anthology that explores the varied terrain of gender landscape, offering a thought-provoking view of the educational paths taken by girls and boys. Comprehensive in scope yet easy to read, this fascinating anthology brings together a wide variety of perspectives from the major camps of the gender debate to illustrate how this issue affects every facet of the educational enterprise. The book includes the most groundbreaking and controversial pieces on gender while examining key developmental, learning, and cultural theories underlying the gender debates. Topics covered include the nature/nurture debate, gender achievement gaps, testing and teaching bias, the cultural context of gender, and sexual harassment. Featuring a Foreword by Susan Bailey, executive director of Wellesley Centers for Women, The Jossey-Bass Reader on Gender in Education includes excerpts from controversial articles that sparked debate, such as the AAUW American Association of University Women report *How Schools Shortchange Girls*.

Christina Hoff Sommers *The War Against Boys* Carol Gilligan's *In a Different Voice* and William Pollock's *Real Boys* The thirty one articles and book chapters in this collection represent an extremely wide range of opinions and approaches to the topic of gender equity Taken together they dispel any notion of quick fixes or exclusively one sided disadvantage but will leave readers with a clearer understanding of the complexities inherent in any discussions of education and gender
