picture of American literature one vital to the creation of an ethnic consciousness This is the first extended look at Polish language fiction written by turn of the century immigrants a forgotten body of American ethnic literature Addressing a blind spot in our understanding of immigrant and ethnic identity and culture *Traitors and True Poles* challenges perceptions of a silent and passive Polish immigration by giving back its literary voice **Timar's Two Worlds** Mór Jókai, 1894 **In Her Words** Margaret H. that surround this evolving area of study. But other perspectives have also begun to flourish. These approaches question the reliance on structural linguistics and the tools of English and cultural studies in the examination and understanding of comics. In this edited collection, scholars from a variety of disciplines examine comics by addressing materiality and form as well as the wider economic and political contexts of comics creation and reception. Through this lens, influenced by poststructuralist theories, contributors explore and elaborate other possibilities for working with comics as a critical resource, consolidating the emergence of these alternative modes of engagement in a single text. This opens comics studies to a wider array of resources, perspectives, and modes of engagement. Included in this volume are essays on a range of comics and illustrations as well as considerations of such popular comics as Deadpool, Daredevil, and V for Vendetta, and analyses of comics production, medical illustrations, and original comics. Some contributions even unfold in the form of comics panels.
