**Wingfield College and Its Patrons** Peter Bloore, Edward A. Martin, 2015 The 650th anniversary of the foundation of Wingfield College was the occasion for a special two day symposium marking the culmination of a three year UEA funded research project into the college and castle The building projects of the late medieval aristocracy focused on their homes and the monasteries churches or chantry foundations under their patronage where their family were buried and commemorated This commemoration allowed a visual celebration of their achievements status and lineage the scale and prestige of which reflected on the fortunes of the family as a whole Wingfield is explored in the context of both the actual building of the castle chantry chapel and the college and that of the symbolic function of these as a demonstration of aristocratic status The contributions to this book examine many topics which have hitherto been neglected such as the archaeology of the castle which had never been excavated the complex history of the college's architecture and the detailed study of the monuments in the church The latest techniques are used to reconstruct the college and castle with a DVD to demonstrate these And the context of the family and its fortunes are explored in chapters on the place of the de la Poles in fifteenth century history as soldiers administrators and potential claimants to the throne

**The Medieval Park** Robert Liddiard,2007 The park a feature of the landscape we always associate with the hunting of deer played an important role in the psyche of Britain s medieval aristocracy This well illustrated book offers a reappraisal of the park by a new generation of landscape researchers who use a diversity of approaches to assess its economy ecology and social role They show how parks actually had many functions other than deer

management and hunting they were integrated into the wider rural economy and also provided a means by which seigniorial control of the landscape might be demonstrated They varied considerably across Britain and are of considerable conservation significance today
