Ribot, Anne M. Larson, 2013-09-13 This volume queries the state and effect of the global decentralization movement through the study of natural resource decentralizations in Africa Asia and Latin America The case studies presented here use a comparative framework to characterize the degree to which natural resource decentralizations can be said to be taking place and where possible to measure their social and environmental consequences In general the cases show that threats to national level interests are producing resistance that is fettering the struggle for reform
