Godly Magistrate

Andrew Forret Scott Pearson

Godly Magistrate:

Christian Magistrate and Territorial Church James Martin Estes, 2007 The Oxford History of Anglicanism, Volume I
Anthony Milton, 2017-01-26 The Oxford History of Anglicanism is a major new and unprecedented international study of the identity and historical influence of one of the world's largest versions of Christianity. This global study of Anglicanism from the sixteenth century looks at how Anglican identity was constructed and contested at various periods since the sixteenth century and what was its historical influence during the past six centuries. It explores not just the ecclesiastical and theological aspects of global Anglicanism but also the political, social, economic, and cultural influences of this form of Christianity that has been historically significant in western culture and a burgeoning force in non-western societies today. The chapters are written by international experts in their various historical fields, which includes the most recent research in their areas as well as original research. The series forms an invaluable reference for both scholars and interested non-specialists. Volume one of *The Oxford History of Anglicanism* examines a period when the nature of Anglicanism was still heavily contested. Rather than merely tracing the emergence of trends that we associate with later Anglicanism, the contributors instead discuss the fluid and contested nature of the Church of England's religious identity in these years and the different claims to what should count as Anglican orthodoxy. After the introduction and narrative chapters explain the historical background, individual chapters then analyse different understandings of the early church and church history: variant readings of the meaning of the royal supremacy; the role of bishops and canon law; and cathedrals; the very diverse experiences of religion in parishes; styles of worship and piety; church decoration and Bible usage; and the competing claims to Anglican orthodoxy of puritanism, avant-garde conformity, and Laudianism. Also analysed are arguments over the Church of England's confessional identity and its links with the foreign Reformed Churches and the alternative models provided by English Protestant activities in Ireland, Scotland, and North America. The reforms of the 1640s and 1650s are included in their own right, and the volume concludes that the shape of the Restoration that emerged was far from inevitable or expressive of a settled Anglican identity.

Christian Magistrate and State Church James Martin Estes, 1982 **The Oxford History of Anglicanism** Anthony Milton, Jeremy Gregory, Rowan Strong, Jeremy N. Morris, William L. Sachs, 2017 The Oxford History of Anglicanism is a major new and unprecedented international study of the identity and historical influence of one of the world's largest versions of Christianity. This global study of Anglicanism from the sixteenth century looks at how Anglican identity was constructed and contested at various periods since the sixteenth century and what was its historical influence during the past six centuries. It explores not just the ecclesiastical and theological aspects of global Anglicanism but also the political, social, economic, and cultural influences of this form of Christianity that has been historically significant in western culture and a burgeoning force in non-western societies today. The chapters are written by international experts in their various historical fields, which includes the most recent research in their areas as well as original research. The series forms an
