Everyday Life Reader:

The Everyday Life Reader Ben Highmore, 2002 Using primary materials Highmore brings together a wide range of thinkers to provide a comprehensive resource on theories of everyday life Highmore's introduction surveys the development of thought about everyday life

Ordinary Matters Lorraine Sim, 2016-10-20 The first major interdisciplinary study of the ordinary in modernist women's literature and photography that demonstrates how their alternative vision of the everyday extends and often complicates that of their male contemporaries as well as contemporary everyday life theory

Performing the "everyday" Alden Cavanaugh, 2007-07 This interdisciplinary anthology explores the representation of everyday life across several disciplines in a century known for its interest in individual experience of the mundane as well as the heroic Comprised of essays by established and emerging scholars of literature art and music history the volume explores not merely the range of performances under the banner of the everyday but also the meanings inherent in these attempts to create art out of the experience of the real In this collection the authors attempt to provide a wide ranging picture of the many ways in which the notion of the everyday is a valuable conceptual frame through which the eighteenth century may be apprehended as this critical term allows for issues of gender race and class to come into focus Alden Cavanaugh is Associate Professor of Art History at Indiana State University

Everyday Life and Cultural Theory Ben Highmore, 2002-08-27 Ben Highmore traces the development of conceptions of everyday life from the cultural sociology of Georg Simmel through the Mass Observation project of the 1930s to contemporary theorists

Counter-Archive Paula Amad, 2010-09-28 Counter Archive brilliantly reflects the visual character of philosophy geography and historiography in twentieth century France Organized hermetically and crafted meticulously this volume offers a wealth of information as it considers film theory Tom Conley Harvard University Tucked Away in a Garden on the edge of Paris is a multimedia archive like no other Albert Kahn's Archives de la Planete 1908 1931 Kahn's vast photo cinematographic experiment preserved world memory through the privileged lens of everyday life and Counter Archive situates this project in its biographic intellectual and cinematic contexts Tracing the archive's key influences such as the philosopher Henri Bergson the geographer Jean Brunhes and the biologist Jean Comandon Paula Amad maps an alternative landscape of French cultural modernity in which vitalist philosophy cross pollinated with early film theory documentary film with the avant grade cinematic models of temporality with the early Annales school of history and film's appropriation of the planet with human geography and colonial ideology At the heart of the book is an insightful meditation upon the transformed concept of the archive in the age of cinema and an innovative argument about film's counter archival challenge to history This impressive book carves out a field of interest that prior to Paula Amad's scrutiny did not exist Amad displays extraordinary erudition assembling a remarkable bibliography of primary sources She invites us to ponder her ideas in relation to our own digital counter archival image overload Antonia Lant New York University editor of

Red Velvet Seat Women's Writings on the First Fifty Years of Cinema Paula Amad handles technical details with flourish and mastery and the research in the French archives is exhilarating Donald Crafton University of Notre Dame Paula Amad's book is far more than an unusually successful effort to recover and analyze Kahn's unique dream of archiving the planet It stages a theoretical interrogation of the terms archive everyday life and modernity arguing that the emergence of motion pictures produced a revisionist concept of the archive or what she calls the counter archive Her book ultimately mounts a highly original methodological exploration of the intersection of history and theory Richard Abel University of Michigan The Reader's Digest De Witt Wallace, Lila Acheson Wallace, 1928 *Reader's Index and Guide*, 1913 *Upheavals of Thought* Martha C. Nussbaum, 2003-04-14 In this compelling new book Martha C Nussbaum presents a powerful argument for treating emotions not as alien forces but as highly discriminating responses to what is of value and importance She explores and illuminates the structure of a wide range of emotions in particular compassion and love showing that there can be no adequate ethical theory without an adequate theory of the emotions This involves understanding their cultural sources their history in infancy and childhood and their sometimes unpredictable and disorderly operations in our daily lives

Mainstream, 1954 *The Routledge Handbook of Contemporary Feminism* Tasha Oren, Andrea Press, 2019-05-16 Feminism as a method a movement a critique and an identity has been the subject of debates contestations and revisions in recent years yet contemporary global developments and political upheavals have again refocused feminism's collective force What is feminism now How do scholars and activists employ contemporary feminism What feminist traditions endure Which are no longer relevant in addressing contemporary global conditions In this interdisciplinary collection scholars reflect on how contemporary feminism has shaped their thinking and their field as they interrogate its uses limits and reinventions Organized as a set of questions over definition everyday life critical intervention and political activism the Handbook takes on a broad set of issues and points of view to consider what feminism is today and what current forces shape its future development It also includes an extended conversation among major feminist thinkers about the future of feminist scholarship and activism The scholars gathered here address a wide variety of topics and contexts activism from post Soviet collectives to the Arab spring to the MeToo movement sexual harassment feminist art film and digital culture education technology policy sexual practices and gender identity Indispensable for scholars undergraduate and postgraduate students in women gender and sexuality the collection offers a multidimensional picture of the diversity and utility of feminist thought in an age of multiple uncertainties **The Reader's Index and Guide**, 1930 **The American Educational Catalogue**, 1919 **Subversive Mothers, Disturbing Domesticity** Clare Gallagher, 2025-12-11 Home is a word brimming with emotion expectation and contradiction It is where love and comfort are sought yet it can also feel oppressive or unreachable *Subversive Mothers Disturbing Domesticity* unpacks the many dimensions of what it means to inhabit this space physically emotionally and socially Is home a sanctuary a workplace or a battleground for equality *Catalogue for the ...
