Furthering Talk:

Furthering Talk Thomas Strong, David Pare, 2012-12-06 Recently a client coming in for her second appointment told me the story of how she had been volunteering her time for the past several years to free several innocent prisoners from Illinois prisons. She told me how tenaciously and persistently she had to work against politicians who did not want these releases to take place. I was so struck by her dedication and personal sacrifice of time, money, and energy. At the end of her story, I thanked her. I said there were many times when I heard some story of injustice on the news and I thought to myself how I should get involved or at least write a letter. But somehow other matters would take precedence, my anger would dissipate, and soon the issue would slip my mind. Listening to her, I felt grateful that there were people like her to take up the cause and put energy and voice to my concerns. I looked at her and thanked her again. Reading this manuscript, I was reminded of this story. Editing a book on postmodern thinking and ways of being with clients is certainly not the same as confronting politicians or taking on power structures in a justice system. But nonetheless, after reading this manuscript, I found myself grateful to Tom Strong and David Pare for their taking the time and committing the energy to the collection. This is a book that should have been written. It is timely and moves ideas forward. This is a very worthwhile endeavor, and the product reflects their dedication to contemporary ideas.

Discourse in Action Rodney H. Jones, Sigrid Norris, 2005-09-21 From emails relating to adoption over the Internet to discussions in the airline cockpit, the spoken or written texts we produce can have significant social consequences. The area of Mediated Discourse Analysis considers texts in their social and cultural contexts to explore the actions individuals take with texts and the consequences of those actions. *Discourse in Action* brings together leading scholars from around the world in the area of Mediated Discourse Analysis, revealing ways in which its theory and methodology can be used in research into contemporary social situations. It explores real situations and draws on real data. Each chapter shows how analysis of texts in their social contexts broadens our understanding of the real world. Taken together, the chapters provide a comprehensive overview to the field and present a range of current studies that address some of the most important questions facing students and researchers in linguistics, education, communication studies, and other fields.
