## **Environmental Aid Programmes To Eastern Europe:**

*Environmental Aid Programmes to Eastern Europe* Ragnar Löfstedt, Gunnar Sjöstedt, 1996 Using case studies to survey the environmental aid of several European countries this work aims to identify the mistakes that have been made in the field of environmental aid It examines how these nations can improve their environmental aid programmes overall

*Environmental Issues in Central and Eastern Europe* United States. General Accounting Office, 1994 Environmental Problems in East-Central Europe Frank Carter, David Turnock, 2002-09-26 In this new edition the progress made in the last decade to solve the environmental problems described in the first edition is assessed The attempts to bring environmental legislation into line with West European norms is also described *Environmental Problems of East Central Europe* looks at air and water pollution modern farming water supplies waste management and landscape protection These topics are placed within economic social and political profiles as spending on a clean environment must be reconciled with welfare spending and the safeguarding of jobs European Union assistance civil society and the work of environmental NGOs are also discussed All of these matters are considered within the context of the wider geographical area and then by each individual country including the previously communist states lying to the west of the Soviet Union now with the former federal states of Czechoslovakia and Yugoslavia broken up into seven different entities and a review of the former Soviet Union with particular reference to the Baltic States *Environmental Problems in East Central Europe* provides a wealth of up to date reference material with a vast amount of supporting literature on environmental conditions and the functioning of civil society and a map of each country The environment is being taken seriously by them all such is the influence of the Rio sustainability agenda in general and the EU environmental acquis in particular The book reveals that Eastern Europe is not a blighted area but in some respects has a higher biodiversity than Western Europe Although there is enormous waste and inefficiency in energy use people actually consume relatively little and the East therefore has some lessons for the West in terms of managing on the bases of fair share of the earth s resources **European Environmental Policy** Mikael Skou

Andersen, Duncan Liefferink, 1997 This major new literary study offers a fresh view of the significance of the famous group of fourteenth century poems *Pearl Cleanness Patience and Sir Gawain and the Green Knight* It is a comprehensive study which puts the poems themselves firmly at its centre though it is always alert to relevant aspects of their literary and cultural context John Anderson builds his discussions of the poems ideas on an examination of the anonymous poet s superb Shakespeare like language He finds that the great fourteenth century struggle between religious and secular forces for control of men s minds underlies all the poems This title is the first in the new Manchester Medieval Literature series which makes readability a priority Accordingly despite its wide range of reference and the radicalism of some of its leading ideas this book is written in a jargon free style designed to appeal to specialist non specialist and student readers alike Science and Politics of Foreign Aid B. Hassler, 2011-06-27 Contemporary international aid consists of a wide range of various support

programs where the end result in many cases not only reflects the needs of the recipient country but also the interests of the donor country In Science and Politics of Foreign Aid Swedish Environmental Support to the Baltic States it is shown that this particular support has been directed primarily towards areas of joint concern such as air pollution and effluents to the Baltic Sea Environmental problems with primarily local effects have to a large extent been neglected in the Swedish support program The requirement on the Baltic recipient countries to finance a specific fraction of each joint program with local resources has furthermore drained the local national environmental budgets from resources making it very difficult for these countries to mitigate various local environmental hazards by themselves In contrast to many previous foreign aid studies where various donor country biases often are suggested but not empirically validated this book gives an in depth view of how a particular support program is influenced by specific and self interested considerations *Environmental science : understanding, protecting, and managing the environment in the Baltic Sea region* Lars Rydén,Pawel Migula,Magnus Andersson,2003 **Environmental Protection in East-Central Europe** Peter Hardi,Werner Weidenfeld,1994 **The Effectiveness of European Union Environmental Policy** W. Grant,D. Matthews,P. Newell,2000-10-25 Several hundred directives on environmental policy have been produced by the European Union What impact has the output of the legislative factory had After considering how decisions on environmental policy in the EU are made and the balance of power between business and environmental interests this book draws on the specialist expertise of the authors to look in depth at the areas of global warming water pollution and air pollution Environmental Action Programme for Central and Eastern Europe World Bank,1993 **Environmental Issues in Central and Eastern Europe** United States. General Accounting Office,1994 *Environmental Transition in Nordic and Baltic Countries* Hans Aage,1998 Using eight country case studies this book assesses recent policies to address environmental problems in the region and examines the choice of policy instruments used in countries such as Estonia Latvia Finland and Sweden Bibliographie Mensuelle United Nations Library (Geneva, Switzerland),1997-07 Environmental Funding in Europe Elan Garonzik,Simon Brown,1998 **Post-Soviet Geography** ,1995 **A Flourishing Partnership** Great Britain. Department of the Environment,1993 *International Affairs* ,1992 **OECD Environmental Performance Reviews** ,1997 **Environmental Performance Reviews** Organisation for Economic Co-operation and Development,2001 The OECD Environmental Performance Reviews Programme conducts peer reviews of environmental progress in each OECD country and scrutinises efforts to meet both domestic objectives and international commitments *Official Journal of the European Communities* ,1999 *International Protection of the Environment* Bernd Rüster,Bruno Simma,1995
