Current Issues in Industrial Economic Strategy Keith Cowling, Roger Sugden, 1992

Economic Strategy and the Labour Party M. Wickham-Jones, 1996-11-26 Economic Strategy and the Labour Party examines the nature and development of the Labour party s economic policy between 1970 and 1983 Drawing on extensive archival research Mark Wickham Jones analyses the radical nature of the new proposals adopted by the party in 1973 and charts the opposition of Labour s leadership to them The resulting disunity was the central cause of leftwingers demands to reform Labour s constitutional structure and of the party s election defeat in 1983 Mark Wickham Jones assesses the nature of Labour s social democratic objectives and the organisational structure of the party In the Epilogue he provides a detailed account of the internal reforms under Neil Kinnock s leadership of the party which have helped to secure the foundations of Labour s electoral recovery since 1983

Japan's Economic Strategy in Brazil Leon Hollerman, 1988

The Labour Party's Economic Strategy, 1979-1997 R. Hill, 2001-09-26 The book considers Labour s economic strategy as it developed through the party s long period of opposition between 1979 and 1997 This history argues strongly that accounts of Labour s recent past which claim that the Party was driven by a combination of Thatcherism and opinion polls are flawed It offers an alternative account which stresses the importance of debates within and around the Party about how the economy should be understood the role of markets and the state and British industrial decline

The Socialist Ideas of the British Left's Alternative Economic Strategy Baris Tufekci, 2019-11-30 This book provides the first book length study of the political and economic ideas of the British left s Alternative Economic Strategy in the 1970s and early 1980s Discussing the AES s approaches to capitalism the nation state and the working class it argues that existing academic accounts have significantly overstated the radicalism of the strategy Perhaps more notable especially in the light of its stated revolutionary aims was the extent of its moderation its continuities with post war Labour revisionism its marked reluctance to look beyond the market economy the degree of its preoccupation with Britain s global economic status and its inability to break with Labourist politics of class co operation in the national interest While the book argues that the AES was the last class politics socialist initiative in mainstream British politics it also explores the ways in which its ideas perhaps prepared the way for New Labour in the 1990s and its relationship with Corbynism since 2015

The Lithic Production System of the Princess Point Complex During the Transition to Agriculture in Southwestern Ontario, Canada Chen Shen,2001 This study examines the lithic production systems of the Princess Point Complex of southwestern Ontario Canada which represents a transitional culture from the Middle to Late Woodland in northeast North America ca AD 500 1 000 The analyses aim to reconstruct the pattern of Princess Point lithic production and to explore the transformation of lithic production in relation to the emergence of food production in the study region The lithic data comes from a three year field investigation at the Grand Banks Lone Pine and Young 1 sites The results of lithic analyses demonstrate that the Grand Banks industry represents a generalized stone tool production It suggests that the shift from specialized to generalized stone tool production as a long term technological change is likely associated with the introduction of horticulture Gorbachev's Economic Strategy in the Third World Giovanni Graziani,1990-02-15 Giovanni Graziani examines Gorbachev s reforms in terms of economic relations with the Third World and presents a detailed and sophisticated statistical analysis of Soviet economic assistance and trade This book critically evaluates all the statistical data from Soviet and United Nations sources and presents the changing Soviet attitude toward indebtedness and the growing dissatisfaction expressed by both the Third World and the U S S R over the management of Soviet aid The author notes a contradiction between Gorbachev s strategy and statistical evidence for the first years of his office but stresses that the recent moves to trade with South Korea and other Asian countries are bound to affect the Soviet geographical pattern of trade His estimates show the increasing importance of agricultural products and fuels in Soviet imports and of military equipment and fuels in its exports Particularly interesting is what Graziani calls the oil imbroglio a triangular trade pattern in which the U S S R has increased its imports of crude oil from the Third World for reexport to the West in order to stabilize its export earnings in hard currencies threatened by falling oil prices The book concludes that no expansion of Soviet economic ties with the Third World is foreseen in the short run and that eventual Soviet participation in international economic organizations might further entail new conflicts with the Third World *AERA.* ,1925
